Comments and suggestions for the teaching assistant

- An excellent TA. Very focused on providing complementary classes to the course evaluation methodology, and with a very useful methodology to think, propose and work on research ideas preliminarily. The classes were didactic and engaging, and he was always available for our questions with a very good disposition.
- The TA Sessions were great and very useful for the course's tasks.
- You're the best! (despite of the music...)
- Sevin did great work and deserves a lot of praise. She invested a lot of time and effort, which I appreciate. I hope her research didn't suffer too much in the process. I predict an incoming award as best TA next year!
- Sevin, excellent job! Really engaging and we could tell that you actually cared about the course and about our struggles within the course. One comment: If you wanna make us write something during the TA session please give us more than 5 or 10 minutes.
- I love your energy and what you taught. Thanks Sevin!
